

Village Maintenance Report

To: Mayor David Miller

Cc: Deputy Mayor Larry Chaleff and Village Trustees

From: Brian Gauger

Date: September 30,2024

Re: September Maintenance Report

1.General Village Maintenance: We have completed the retaining wall at the end of Tain Drive, we received 2 tractor trailer loads of RCA and graded the area. The street sweeper went to LI Sanitation for a leaking solenoid and the valve on water pump was stuck open. The sweeper has been going out daily. The bushes at all the entrances and village hall have been trimmed back.

2. Street Lighting: The three lights by the park stairs were out, and I found it to be a blown fuse. The light pole at the end of Tain Drive was removed and reinstalled by the corner of the retaining wall. We noticed the light at 30 Wensley was staying on during the day, I contacted the tech support, and they did a remote reset for the node, and it is working properly.
