Re: February 2024 Maintenance Report

1.General Village Maintenance: There was one snow event, the roads were plowed and salted to prevent icy conditions. The sidewalks and driveway aprons were also cleared. The village hall repairs, and painting have been completed. We have been working on restoring the wooden village entrance signs. Each sign will be sanded and re-varnished to protect the wood from the weather.

2.Street Lighting: During our morning rounds on Monday February 26, 2024, we found the street light post in front of 10 Dunster to be knocked down and the light fixture to be smashed. We replaced the pole and fixture.
